## Information Security, Quality, Health, Safety and Environment Policy

The SSH Integrated Management System (IMS) ) is an amalgamation of international standards with a risk-based approach to the management of our strategic objectives and procedures which reflects our commitment to continual improvement, ensuring our ability to meet the requirements of Information Security (ISO27001:2013), Quality (ISO 9001:2015), Health, Safety (ISO 45001:2018) and Environmental (ISO 14001:2015).

SSH leadership and management are committed to:

1. Health, safety, information security and environmental protection, as it is integral to everything we do by providing resources to support our IMS management system and promoting a positive culture, by empowering and enabling our employees to work in a manner which keeps them safe and secure.
2. Providing the necessary resources, information, instruction, and training and awareness, to ensure the appropriate levels of competence and communication have been established and are maintained.
3. Observe and comply with relevant legislation, regulations and other documents relevant to the business.
4. Co-operating and consulting with our employees and where they exist, "workers representatives", together with our stakeholders, and the local communities we work in.
5. Focussing on the identification, prevention and elimination of threats, hazards, risk of injury and ill health, and minimize our environmental impact through pollution prevention, reduction of emissions, and recycling of waste.
6. Ensuring information is protected against unauthorized access, its confidentiality, and its integrity is assured and the availability is maintained through the controls identified.
7. To investigate all incidents and threats, by effectively identifying the causes and applying corrective and preventive measures to avoid recurrence.
8. SSH will continually communicate this policy to all SSH staff and relevant stakeholders.

This Policy shall be regularly reviewed to ensure its effectiveness in driving continuous improvement in our business.
